

# MEET DR. DAIN HEER

Dr. Dain Heer is a best selling author and an internationally renowned speaker and facilitator of consciousness and change. For over 14 years now, Dain has been inviting people worldwide to embrace their true greatness—people from every culture, country, age, and social strata of society. Originally trained as a chiropractor, he has a completely different approach to healing by facilitating people to tap into and recognize their own abilities and knowing.

Dain grew up in the ghetto in Los Angeles. He was the only white face within 5 miles of where he grew up. He didn't see the difference between him and others and still doesn't. In his early years he was constantly exposed to mental, physical, emotional, sexual, and monetary abuse. However, he never chose to be a victim; even after all the abuse he suffered. Along the way, Dain discovered personal transformation, allowance, courage, and resilience. He has learned to transform life's challenges into a gift of strength. In the end, what persevered was the kindness, which is and has always been him.

Over time, Dain recognized he had the ability to assist people to heal themselves differently than any other method being used on the planet. In his talks and workshops, he uses a unique set of tools and provides step-by-step energetic processes to get people out of the answers, conclusions, and judgments that are keeping them stuck in a cycle of no choice and no change – leading them into the moments of aha and awe that have the power to change anything.

Today, Dain is the co-creator of Access Consciousness, a world-wide modality now in 173 countries that empowers people to know that they know. He has become an internationally recognized thought leader in transforming lives and is most known for the transformational processes he has developed — The Energetic Synthesis of Being and The Symphony of Possibilities.

He invites people to more consciousness from total allowance, caring, humor, and a phenomenal knowing. His most recent book, 'Being You, Changing the World', was published in 2011 has been translated into many different languages.

## Being You, Changing The World

An international bestseller 2015

This book is a truly innovative toolbox for the seekers in the world—the people who know that something different is possible, but who have never before had the tools to create what they really desire.

Using an exclusive set of tools and processes called Access Consciousness, Heer walks you through the steps to actually create change in your life and in the world.

When Heer came into contact with these tools for the first time, he was on the verge of suicide, and the Access tools changed all of that. With vulnerability, clarity and humor, Heer uses his personal transformation over the past twelve years to show you the kind of dynamic change that is actually possible.

There is no other book like this. It will not provide you with one single answer to hold on to. Instead, it will show you how to function from question and choice, in ten second increments, and give you access to all that you innately already know.

In a way, this book is a great co-creation. Heer draws on the wisdom of the thousands of people he has worked with all over the world. When starting to recognize that they're not messed up, that they're not wrong, they also realize that they have abilities and capacities way beyond their wildest dreams.

Are you ready to know that?
